Ph: 9560557446 | sakashsrivastava06@gmail.com | [linkedin.com/in/Sakash Srivastava](https://www.linkedin.com/in/Sakash-Srivastava) | github.com/Sakash-Srivastava

BRIEF SUMMARY

Analytical and adaptable ML enthusiast with hands-on experience in real-world projects involving machine learning, data analysis, and computer vision. Proficient in Python, OpenCV, and key data libraries, with a solid foundation in algorithms and statistics. Skilled at building efficient, data-driven solutions and eager to contribute to impactful projects in Data Science and Software Development. Passionate about continuous learning and solving meaningful problems.

EDUCATION

The LNM Institute Of Information Technology <i>Bachelor of Technology in Electronics and Communication Engineering, CGPA : 7.44</i>	Jaipur, Rajasthan Aug 2023 – May 2027
Delhi Public School <i>Grade 12th CBSE : PCM + Computer Science, Percentage : 95.4 %</i>	Dwarka, New Delhi May 2023
Delhi Public School <i>Grade 10th CBSE, Percentage : 94.6 %</i>	Dwarka, New Delhi May 2021

EXPERIENCE

Visiting Research Intern <i>King's College London</i>	June 2026 – Current London, United Kingdom
Working on a deep-learning segmentation pipeline for orbital anatomy and pathology, evaluating model generalisability across international imaging cohorts	
Research Intern <i>Netaji Subhas Institute Of Technology</i>	June 2025 – July 2025 New Delhi, India
Worked as a Research Intern on advanced face super-resolution (FSR) techniques, focusing on adaptive strategies to enhance low resolution facial image reconstruction. Developed and evaluated patch-wise optimization frameworks using PSNR and SSIM, gaining hands-on experience in MATLAB, image processing, and model interpretability.	
Machine Learning Intern (Remote) <i>Upvalue Tech Pvt. Ltd.</i>	January 2025 – July 2025 Jaipur, Rajasthan
At this early stage, my role was focused on the skills related to image processing and computer vision. Learnt and acquired technical skills in Python and OpenCV, leading to contributing to end-to-end project development in a fast-paced environment.	

PROJECTS

Real Estate Price Prediction - Skills: <i>Python, Flask, Machine Learning, Data Cleaning, Data Processing, HTML, CSS</i> - Built an end-to-end ML system to predict Bengaluru property prices using 13,000+ listings. Designed a full pipeline from data cleaning and feature engineering to model training with XGBoost (80%+ R^2) and deployed a Flask-based web app for real-time predictions. Applied Isolation Forest for outlier detection and integrated domain-specific logic for robust results. - Github Link : Real Estate Price Predictor - Sakash Srivastava	June 2025
Face Detection Skills: <i>OpenCV</i> - Built a basic real-time face detection system using Python and OpenCV, leveraging the Haar Cascade Classifier to detect faces from webcam input. Implemented grayscale conversion, face localization, and bounding box visualization, which strengthened my understanding of computer vision fundamentals and real-time image processing. - Github Link : Face Detection - Sakash Srivastava	June 2025
URL Phishing Detection Skills: <i>Machine Learning, Random Forest, Feature Selection, Exploratory Data Analysis</i>	June 2024

- Worked on my first ML project implementing a Random Forest Classifier on a high-dimensional dataset, using correlation matrix-based feature selection and visualization. Gained practical exposure to core ML concepts, enhancing my understanding of model training, feature engineering, and algorithm implementation
- Google Colab Link : [URL Phishing Detection - Sakash Srivastava](#)

TECHNICAL SKILLS

Languages: Python, C++

Frameworks: Flask

Developer Tools: Git, VS Code, Google Colab

Libraries: pandas, NumPy, Matplotlib

Key Skills: Machine Learning

CERTIFICATIONS/ASSESSMENTS

Supervised Machine Learning: Regression and Classification: Coursera (Stanford)

Advanced Learning Algorithms - Coursera

Prompt Engineering & Programming with OpenAI : Columbia Plus: Key Skills: Prompt Engineering, OPENAI API, Python, LLM, Langchain

Machine Learning in Production : Key Skills: ML Lifecycle, Model Deployment, Model Monitoring, Error Analysis

POSITIONS OF RESPONSIBILITY

Senior Executive - Training, Placements and Corporate Relations Cell

The LNM Institute Of Information Technology

Jaipur, Rajasthan

- Conducted regular follow-ups with placed candidates to ensure smooth onboarding and address concerns proactively. Managed and coordinated candidate assessments by companies and the college to evaluate skills, strengths, and improvement areas, facilitating successful and well-matched placements.

Organizer TEDxLNMIIT

The LNM Institute Of Information Technology

Jaipur, Rajasthan

- Worked across multiple roles including Event Management, Sponsorship, Speaker Outreach and Content Writing. Contributed to planning and executing large-scale events, securing sponsors, and crafting impactful content for promotions and speaker outreach.

Vice President - Student Council

Delhi Public School

Dwarka, New Delhi

- Served as Vice President of the school's student council, demonstrating strong leadership, teamwork, and organizational skills while coordinating student initiatives and representing the student body.

ACHIEVEMENTS

- Among the top 5% at Adobe India Hackathon 2025
- Gold Medal Recipient for academic excellence (Scholar Badge recipient for 7 consecutive years) at DPS Dwarka. Blue Blazer and blue tie recipient for maintaining academic excellence
